

LEVEL 3 AWARD

IN AUTOMOTIVE AIR CONDITIONING AND CLIMATE CONTROL DIAGNOSIS AND REPAIR (Light Vehicles, Heavy Vehicles, Bus, Coach And Municipal Vehicles)

ABOUT THE PROGRAMME

This qualification is also suitable for competent MAC technicians who have already completed a previous qualification, including the IMI qualification Level 3 Award in Automotive Refrigerant Handling (EC842-2006) (Ofqual I.D no: 500/6771/0) (or 'in-house' training received prior to 4th July 2010).

Completion of the IMI Automotive Refrigerant Handling qualification means technicians will already have achieved the Refrigerant Handling unit (AC1) and therefore two credits towards this qualification.

Candidates are required to sit an online examination and carry out a practical skills assessment at the end of the course.

QUALIFICATION

IMI Qualification Reference: 600/4336/2
(Light and Heavy Vehicles).

DURATION

This qualification is delivered over 3 Days.

ABOUT THIS COURSE

This qualification offers experienced automotive technicians the opportunity to develop new skills and enhance existing ones. The qualification is suitable for those technicians who wish to expand their breadth of knowledge in the diagnosis and repair of mobile air conditioning (MAC) and climate control systems. Importantly, this qualification also incorporates Unit AC1 (K/600/3391) Refrigerant Handling (EC842-2006). This unit is approved by Defra for MAC technicians (working with cars and car derived vans) who handle F-Gas. Therefore, on the completion of this qualification, technicians will hold a valid certificate (attestation) to legally recover F-Gas.

FURTHER STUDY

Upon completion, technicians have achieved the highest level of qualification in this specialist area.
